

kid's 2018 events

Calvert Library wants children to be excited about learning. We make learning fun and hands-on. We help children explore new technology, make new friends, build confidence and independence, accept disappointment as a learning opportunity, learn to think creatively, be flexible, learn problem-solving, find a passion, learn compassion, embrace change and see life and learning as the exciting adventure it can be.

Put these events on your calendar to imagine, explore, discover, engage and transform!

The Calvert Basics county-wide initiative recognizes how critical the first few years of a baby's life are to brain development. Whether it be in Storytime or any of our other classes for caregivers and their birth-through-five year olds, Calvert Library teaches how applying the "basics" through play with your child creates children ready to read, imagine, learn, interact, explore and discover. Find out more at calvert.thebasics.org.
